

Name: Tracy Milne

Horse's Name: Can't Streak By Me aka Streaker

Where did you get your horse? Purchased from Joe Petitti & Wes Giles in fall of 1999

What is your horse's breeding: By Dash Ta Fame out of a Streakin Dash mare

Tell us something interesting about yourself: I've been a server at the same Village Inn for 26 years. (I started when I was 5, ha ha.)

When did you first join UBRA and how long have you been addicted to barrel racing: I have been a UBRA member for about 10 years. Prior to that I showed horses. I got tired of the politics associated with showing and started barrel racing.

Tell us something interesting or noteworthy about your horse: Streaker has a metabolic condition called Equine Polysaccharide Storage Myopathy, or EPSM. EPSM is a condition in which horses aren't able to break down and utilize glycogen, the enzyme that makes their muscles contract, and it begins to be stored in their muscles. The horses show symptoms of tying up. This condition is completely maintainable through a high fat low carbohydrate diet.

Anything else you would like to say: ***Our Goal*** Is for both of us to make it through an entire season!!
